

SAFEFUNDS would work like this:

First, the client(s) would enroll with safe funds at **NO COST**

1. The client(s) would sign and return our retainer fee agreement to us.
2. Within (14) days of signing the retainer fee agreement; the client(s) would deposit the retainer fee into their Safe funds Account; with instructions to remain in escrow with safe funds until the free item removal process is complete. Deposits can be made by bank wire, electronic funds transfer, or check
3. Credit Rehabilitation Services Inc would see the funds reserved for them, and knows that the retainer fee deposit is secure. Credit Rehabilitation Services Inc would proceed to provide the free service as described in the retainer fee agreement.
4. Client(s) confirms that the free item has been removed, and client(s) releases control of the retainer fee to Credit Rehabilitation Services Inc.
5. Credit Rehabilitation Services Inc would withdraw their funds from their Safe funds account either by electronic funds transfer (inside the USA), international wire transfer (outside the USA), or by check.

BOTH Credit Rehabilitation Services Inc. and the client(s) have been fully protected. The client(s) did not release the funds until the free item removal process was completed. And Credit Rehabilitation Services Inc. knew the retainer fee was secure, because there could be no payment fraud or chargeback

6. If a disagreement arises, the Safe funds system includes complete dispute resolution service.
